Official Statement From Airport President, CEO Rick Piccolo

As a vital part of the community, the Sarasota Bradenton International Airport (SRQ) is working hard to provide a clean and safe environment to protect its employees, tenants and the traveling public. The airport will remain open as we work with our airline partners to support the public's needs.

Due to the current reduction in travelers, the airport has temporarily closed valet parking services and the shade parking lot facility. The short and long-term parking lots will remain open. A reduced number of terminal building restaurants will continue to operate by providing take-out options.

Following the CDC's guidelines, cleaning procedures have been enhanced using hospital grade products to ensure that surfaces are kept clean and disinfected. Educational posters are on display throughout the terminal explaining the importance of handwashing.

If you have travel plans, please check directly with your airline for updated information regarding your flight. Contact information for each of SRQ's airline partners can be found on our website at <https://srq-airport.com/airlines>.

We remain dedicated to serving the public as we respond to COVID-19 and its effects on the travel industry.

Sincerely,

A handwritten signature in black ink, which appears to read 'Fredrick J. Piccolo'.
